

## Task 1 - Microphthalmia Case Study

### Challenge:

Has Ella got perfect vision? Why, why not?

Can Ella detect anything with her right eye? What?

How does Ella's condition affect her?

### More challenging:

What is microphthalmia?

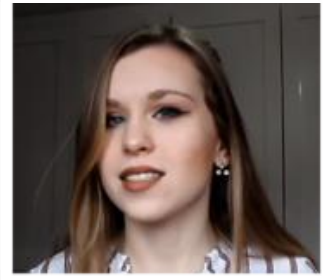

What happened to Ella's eye when she was still in the womb?

How did Ella's condition affect her in one subject in particular at school?

### Mega challenging:

What does the word 'microphthalmia' actually mean?

Does it sound like Ella's condition has held her back? Explain.
