

How are charities supported to continue their work?

Task 6

Charities like MACS couldn't exist without people helping them through fundraising. What are the best ways to fundraise, do you think?

How do people successfully raise funds for charities?

Sometimes people do 'bake-off' competitions and sell their cakes afterwards, giving the money made to charity.

Challenge: On your mind map, write down ten different ways to successfully raise money for charity.

More challenging: As above but number 1-10 in order of how effective you think they would be.

Mega challenging:

Same as the More Challenging task, but you must justify your number 1 (most effective) and number 10 (least effective) choices and be prepared to share your explanations with the class.
